MILFORD DISTRIBUTION SYSTEM  
BALLOT

RECEIVED

FEB 25 1996

WATER RIGHTS  
SALT LAKE

Jerry Mayer  
P. O. Box 427  
Milford, Ut 84751

This ballot is to determine the method for regulating water use within the Milford Distribution System. A detailed description of the two alternatives is contained in the accompanying document entitled "Milford Metering Program".

Please check the space next to the method of regulation that you would prefer.

☒ Alternative 1: Regulate water use by water measurement  
(The committee and the commissioner will install and maintain the water meters)

☒ Alternative 2: Regulate water use by controlling irrigated land  
(The irrigated area will be photographed each year to determine those water users irrigating illegal acreage)

Regardless of the alternative that you voted for above, each water user should vote for one of the following assessment alternatives. This will allow all water users to have a voice in the assessment method in case Alternative 1 is selected by the majority of the water users.

☒ Method 1:  
The distribution system (all the water users) will pay the cost of installing any new meters required to implement Alternative 1. After the initial cost of installing the new meters, the distribution system (all the water users) will pay the cost of maintaining and replacing the meters in the system.

☐ Method 2:  
Each water user will be responsible for the cost of installing any new meters required on his or her well(s) to implement Alternative 1. After the initial cost of installing the new meters, the distribution system (all the water users) will pay the cost of maintaining and replacing the meters in the system.
